

"IMPORTANT.

This site is under construction. We are trying to find the best solution to make the pages readable in several languages. The home page is in French, which is the basic language of the site. The 'Home' section summarizes the content of the site in 5 other languages, and clickable links take the reader to the various sections of the site. We have translated several articles into Italian and English; and, throughout the site, DeepL provides a good automatic translation, by doing a copy/paste. Thank you for your understanding".
